#### CAD Tutorial : 2D CAD Tutorials Picture Writing

# Design out the box

Time 40-50 mins approx

- CAD stands for <u>Computer</u> <u>A</u>ided <u>D</u>esign.
- It is the use of computer technology to aid in the design of something.
- CAD can create 2D and 3D virtual models of goods and products.

## Lesson Objectives...

- To understand the basic tools used in 2D Design.
- To understand the advantages of using CAD
- To be able to successfully use CAD independently to complete a range of tutorials in 2D and then in 3D
- To develop advanced skills and problem solving skills when using 2D Design

### Skills to be used in this project...

Basic Skills	New and Higher Skills
Zoom tool	Rotate tool
Orbit tool	Move tool
Pan tool	Offset tool
Line tool	Arc tool
Rectangle tool	Text tool
Circle tool	Paint Bucket tool
Eraser tool	Bitmap tool
Delete part tool	Making Components

**Basic skills** are those required to do very basic drawings and are detailed as part of this presentation.

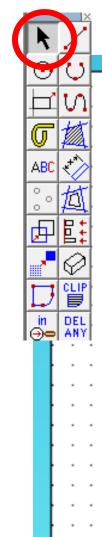

**New and higher skills** may be new to the novice and are the focus for learning in this presentation.

### Skills to be used in this project...

Basic Skills	New and Higher Skills
Zoom tool	Construction lines and points
Orbit tool	Tape Measure tool
Pan tool	Arc tool
Line tool	Contour Tool
Rectangle tool	Bitmap Tool
Circle tool	Paint Bucket tool
Eraser tool	
Delete Part tool	

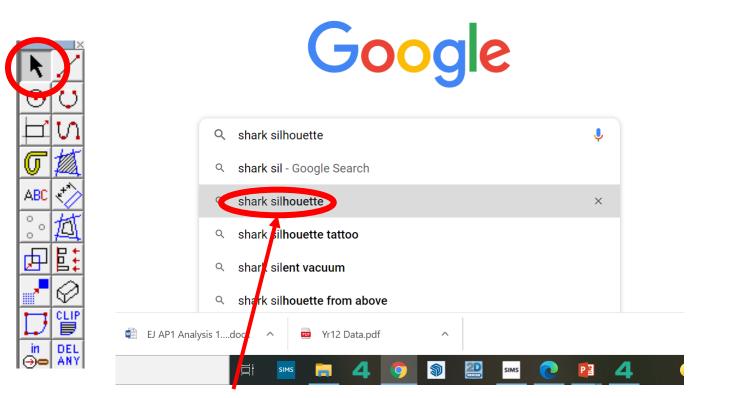

**Basic skills** are those required to do very basic drawings and are detailed as part of this presentation.

**New and higher skills** may be new to the novice and are the focus for learning in this presentation.

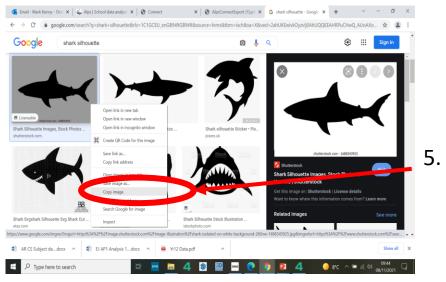

#### 3. Click the *grid lock tool* shown on

4. Search for a *shark silhouette* image on the internet..

Once you have found a *city silhouette. Right click* on the mouse and *copy* the image

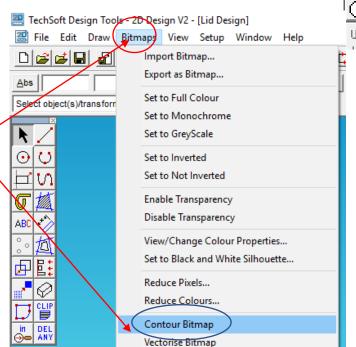

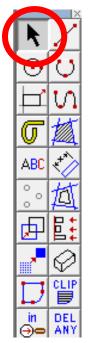

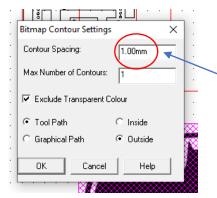

8. Using the *select tool, highlight* the *entire drawing by clicking on it*.

 Select the *Bitmaps toolbar,* at the top of the screen and scroll down until you come to *Contour Bitmap and click on it*.

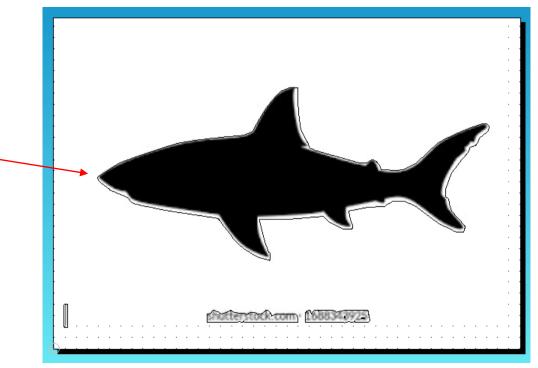

10. A Bitmap contour spacing pop up will appear. This basically traces the image. *Change the contour* from 5.00mm to 1.00 or 0.00mm.

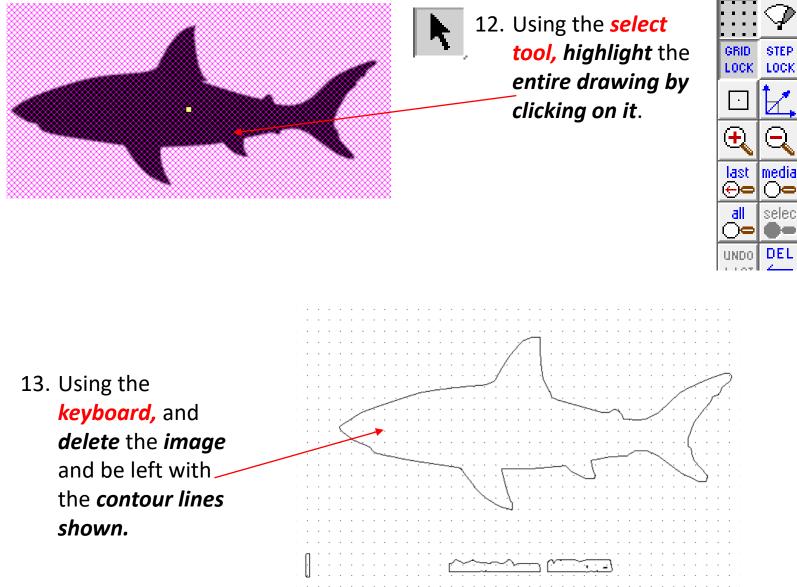

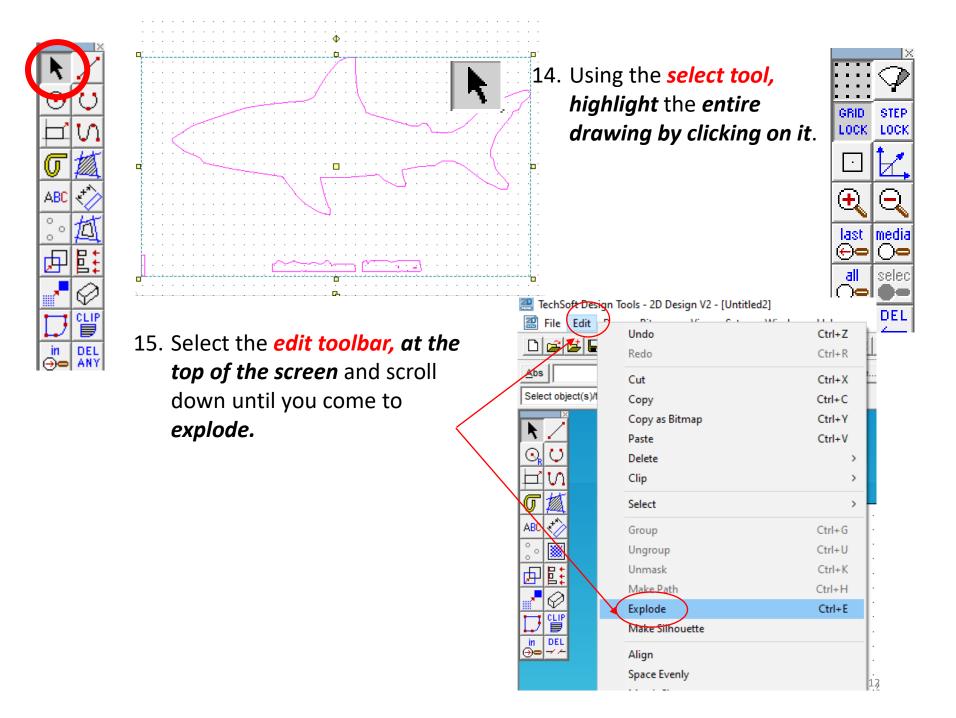

11. A contour or lineshould appear 1mm around your drawing.

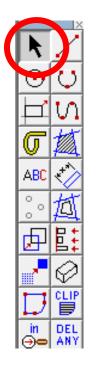

You can set the contour spacing to 0.00mm in the future

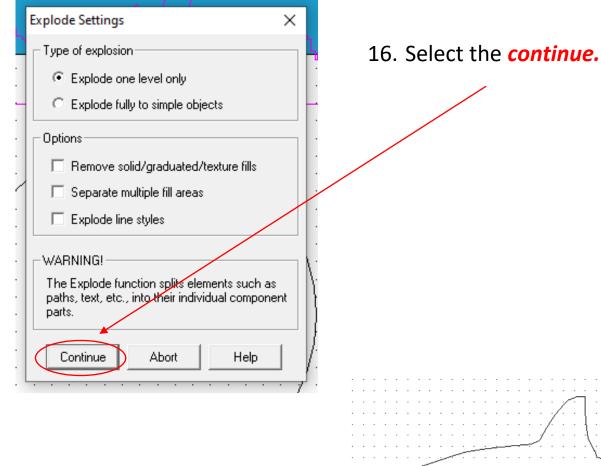

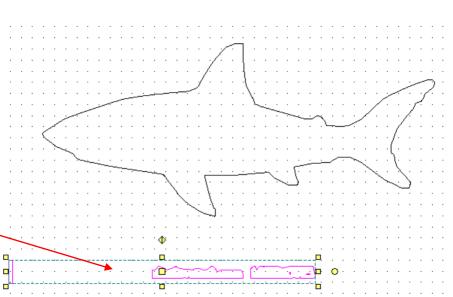

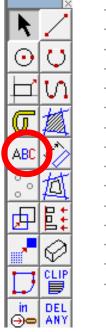

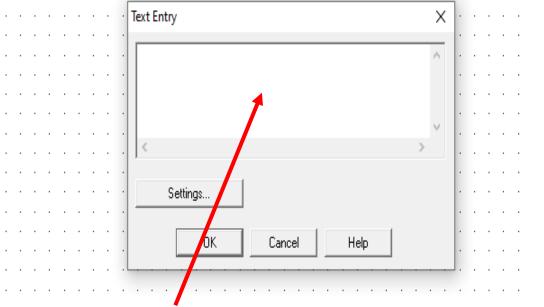

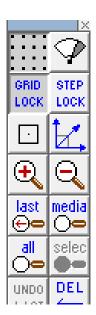

17. Using the Select tool highlight any writing that you don't want and delete them.

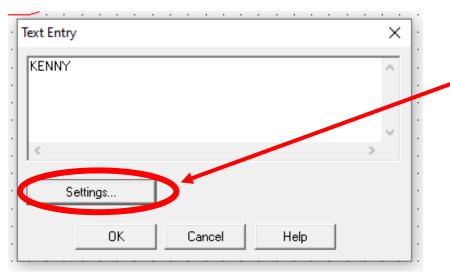

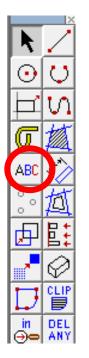

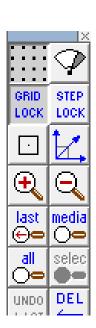

18. Click on the line *ABC (text) tool* shown to bring up the *text entry window* shown.

19. Type in the first letter of your *name*.
Then click on settings to choose your favourite font etc.....

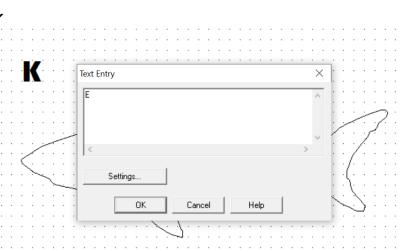

Text Settings	×

Alignment: Align left  Spacing	OK Cancel Help Set Defaults								

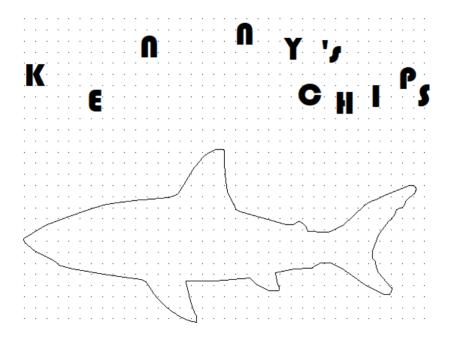

20. Once you have chosen your font clic<sup>L</sup>

**OK** and then **OK** again..

21. Repeat the process to write out your name one letter at a time....

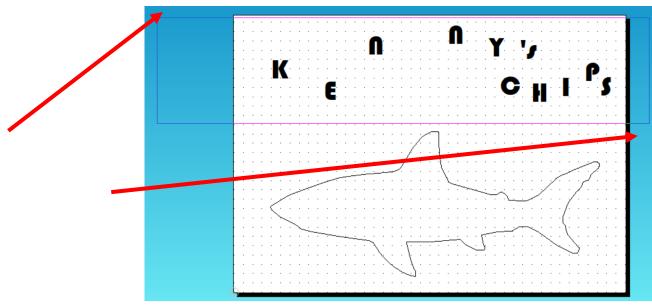

22. I have chosen to add a restaurant style theme to my design by adding chips on the end ....

DEL

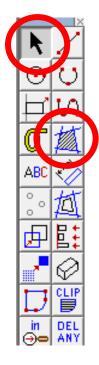

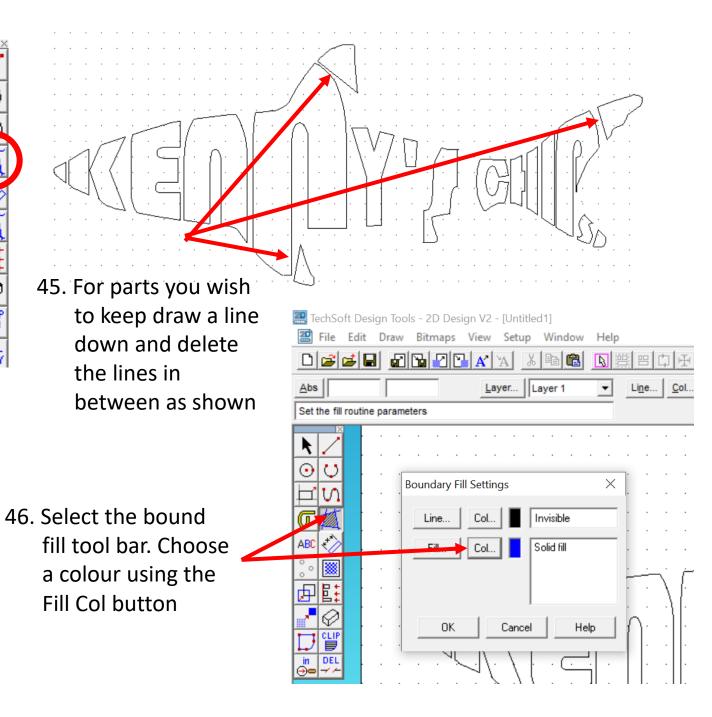

43. **DELETE** the outline in between the letters as shown. You need to be careful not to delete important features though such as the nose and fins

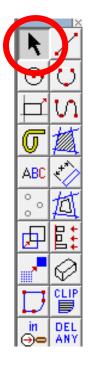

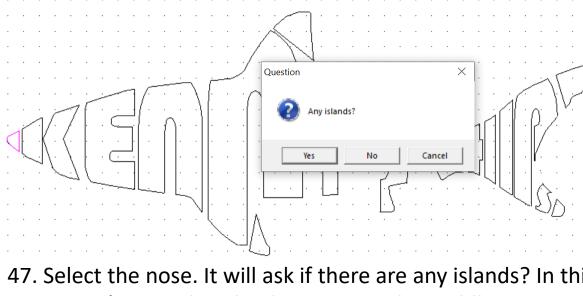

47. Select the nose. It will ask if there are any islands? In this case it's a no. the island is a part in the middle you would not wish coloured in?
