

**Design out the box**

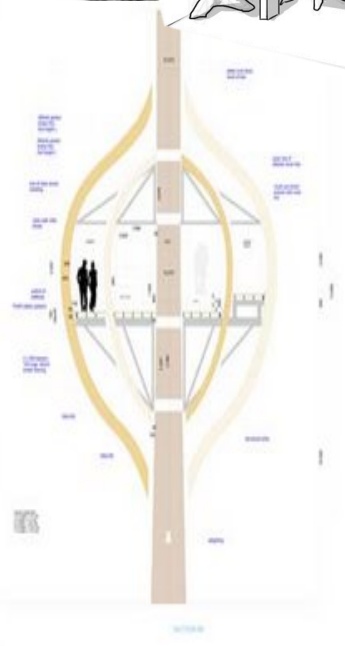

# Tree House

## Context

A local farm in the recent years has expanded to include an award winning farm shop, nature trail, walks and animal enclosures. They have decided to expand to include holiday accommodation. They want this accommodation to be sustainable and give them a competitive edge of local rival establishments.

## Design Task

You have been given the task of developing a range of tree house designs that will house individuals, couples and families. These tree houses must include a kitchen/living room, bedroom, bathroom and outside balcony to make the most of the surrounding countryside, valleys and woods. A tree has been drawn for you on the next page to develop your proposal.
