

**Design out the box**

# Novelty Bookends

## Context

Bookends have the function of supporting books so that they can stand upright. Bookends often incorporate another function in order to stand out from the crowd. This gives them a unique selling point.

## Design Task

You have the task of designing a pair of hand crafted bookends to accommodate a range of different sized books, CDs or DVDs. The bookends will be made from a variety of natural and manufactured materials, and need to be finished to a high standard. It is intended that the bookends will be made in small numbers to be sold at craft fairs and alike nationally.
